6. Detailed Insurance Accident History Information

Depending on the source of insurance payouts and repair (estimate) costs, information is provided categorized into 'cases paid by your insured company (your car insurance)' and 'cases paid by another vehicle insurance company (the other party's insurance) . ' It provides information on cases where damage to the other party's vehicle or property caused by a car accident is paid out of your insurance fund .

If the damage and repair records of the vehicle in question are processed simultaneously by both your car insurance and the other party's insurance due to mutual fault, they will be displayed only in 'My Car Insurance' and omitted from 'Opponent's Insurance'.
